(These are the legal minutes of the meeting and are in the format of an overview of the meeting)

---

Mr. Dionne called the meeting to order at 9:00 a.m.

Mr. Jennings gave an overview of the proposed cell phone tower and access road. He said it is a fairly straightforward project but the access road requires a small wetland crossing.

The Commission walked the centerline of the proposed road and studied the proposed wetland crossing area. They determined the wetland crossing was just inside the woods from the field and wasn't much of a crossing. They found it was very dry and there was not much evidence of it ever being very wet. They agreed that the proposed culvert will be more than sufficient.

*Mr. Jennings motioned to approve the project as presented, Ms. Soley seconded. The motion carried unanimously.*

**Adjournment** – the meeting adjourned at approximately 10:10 a.m.

Respectfully submitted,

Mike Dionne,  
*Conservation Commission Chair*
