The attached appeal has been reviewed in accordance with the provisions of the City of Rochester Ordinances, Chapter 16 "Sewer Ordinance" subsection 16.18 "Appeals," and Chapter 17 "Water" subsection 17.20 "Appeals."

## Recommendations

I recommend an abatement of 15 units of sewer on the August 2019 invoiced amount.

The above recommendation is based upon the following findings:

a. The usage did not enter the sewer system.

b. Total usage on disputed invoice:

28 Units

c. Average use on previous three years is:

13 Units

d. Estimated use over average

15 Units

Value of 15 Units of Sewer at the current sewer rate of 6.75 = 101.25. Total abatement = 101.25 plus accrued interest.

The attached appeal has been reviewed in accordance with the provisions of the City of Rochester Ordinances, Chapter 16 "Sewer Ordinance" subsection 16.18 "Appeals," and Chapter 17 "Water" subsection 17.20 "Appeals."

## Recommendations

I recommend an abatement of 78 units of water and 156 units of sewer on the September 2019 invoiced amount. The decision letter and account will be noted with the language that this is a once in 10 year abatement for this property.

The above recommendation is based upon the following findings:

1. The owner does not dispute the meter reading.

a.	Total usage on disputed invoice	168 Units
b.	Average use on previous three years is:	12 Units
c.	Estimated use over average	156 Units
d.	½ of above average use equals	78 Units

Value of 78 Units of Water at the current water rate of 5.55 = 432.90. Value of 156 Units of Sewer at the current sewer rate of 6.75 = 1,053.00. Total abatement = 1,485.90 plus accrued interest.

Re: Water/Sewer Billing Appeal Application Dated: 10/8/19

Customer Name: Shannon Menard Account: 124440

Service Address: #21 Farrington St

Rochester NH 03867

The attached appeal has been reviewed in accordance with the provisions of the City of Rochester Ordinances, Chapter 16 "Sewer Ordinance" subsection 16.18 "Appeals," and Chapter 17 "Water" subsection 17.20 "Appeals."

## Recommendations

I recommend an abatement of 46 units of water and 91 units of sewer on the September 2019 invoiced amount and any above sewer and ½ of the above average water on the December 2019 invoice. The decision letter and account will be noted with the language that this is a once in 10 year abatement for this property.

The above recommendation is based upon the following findings:

1. The owner does not dispute the meter reading.

a.	Total usage on disputed I	105 Units
b.	Average use on previous three years is:	14 Units
c.	Estimated use over average	91 Units
d.	½ of above average use equals	45.5 Units

Value of 46 Units of Water at the current water rate of \$5.55 = \$255.30. Value of 91 Units of Sewer at the current sewer rate of \$6.75 = \$614.25. Total abatement = \$869.55 plus accrued interest.

The attached appeal has been reviewed in accordance with the provisions of the City of Rochester Ordinances, Chapter 16 "Sewer Ordinance" subsection 16.18 "Appeals," and Chapter 17 "Water" subsection 17.20 "Appeals."

## Recommendations

I recommend an abatement of 36 units of sewer on the July 2019 invoiced amount.

The above recommendation is based upon the following findings:

- a. The usage did not enter the sewer system.
- b. The meter rusted out and was replaced.
- c. Total usage on disputed invoice:

44 Units

d. Average use on previous three years is:

8 Units

e. Estimated use over average

36 Units

Value of 36 Units of Sewer at the current sewer rate of 6.75 = 243.00. Total abatement = 4.00 plus accrued interest.

The attached appeal has been reviewed in accordance with the provisions of the City of Rochester Ordinances, Chapter 16 "Sewer Ordinance" subsection 16.18 "Appeals," and Chapter 17 "Water" subsection 17.20 "Appeals."

#### Recommendations

I recommend an abatement of 24 units of water on the October 2019 invoiced amount. The decision letter and account will be noted with the language that this is a once in 10 year abatement for this property.

The above recommendation is based upon the following findings:

1. The owner does not dispute the meter reading.

a.	Total usage on disputed invoice	62 Units
b.	Average use on previous three years is:	14 Units
c.	Estimated use over average	48 Units
d.	½ of above average use equals	24 Units

Value of 24 Units of Water at the current water rate of \$5.55 = \$133.20. Total abatement = \$133.20 plus accrued interest.

#### 11. Explanation of Appeal Request:

The Utility Billing office advised me of excessive water usage on or about October 3, 2019. With help from one of the department's employees, I quickly determined that I had a leak somewhere in my in-ground lawn irrigation system and immediately shut off the water supply to the system, stopping the leak. Over the next few days, I located the leak – a small crack in one of the deep 1-inch plastic water lines that runs underground to the system's programmable valves (which feed the smaller lines to the sprinkler heads). I dug down to it, cut it out, and replaced it with a new section of water line.

Karen Bonneau and Michele Grant were very helpful and have explained the appeal procedure very clearly, including the once every ten years rule. They calculated that my average usage over the prior 36 months had been 14 units every 3 months, and that I had exceeded that average by 48 units.

Therefore, I am requesting an abatement for half the excess, 24 units.

12. Do you dispute the meter reading used to determine your units of usage?

Has proof of the repair been attached to this appeal form? Yes (receipt)					
14. If your appeal is denied, will this cause you financial hardship for which you will seek
